Human Resource Council

The Culpeper Chamber of Commerce – Human Resource Council met for the first time this past month. Participation was excellent and immediately engaging. The roster of companies that attended included a diverse group of public, private, large, and small employers. The collaborative round table discussion produced several issues that are currently hot topics related local Human Resources in our community. Some of the issues will be discussion topics for future meetings:

- Understanding the Market
- Expectations of Employees – Compensation, Benefits...
- Retaining Employees despite tight budgets and rising benefit costs
- The need for creative HR solutions in the face of declining budgets
- The need for current and good information (ex. CulpeperJobs.com travel calculator)
- Hiring Skilled vs. Unskilled workers reliably.
- Seasonal and Part-time workers – How to comply with regulations when your employer status fluctuates due to season fluctuations in your workforce. Process and applicable regulations.

The group plans to meet on the 2nd Thursday of each month at noon. The next meeting will be January 8th at the Social Services Conference Room on the 2nd floor above Foti's. The format is an informal round table discussion. Call or email the Chamber office for more information.

A Note from Mary Jane Glass – The 2008 Recipient of the LB Henretty Memorial Outstanding Citizen Award:

Dear Culpeper Chamber of Commerce Members,
Now that I have partly recovered from my shock... I want to express my sincere and deep appreciation. Following such a list of previous recipients of the LB Henretty Award overwhelms me. I am truly humbled, for I have not done anything more to deserve this than 99% of other Culpeper Citizens! Thank you! Thank you!
Gratefully

Residential Treatment Services

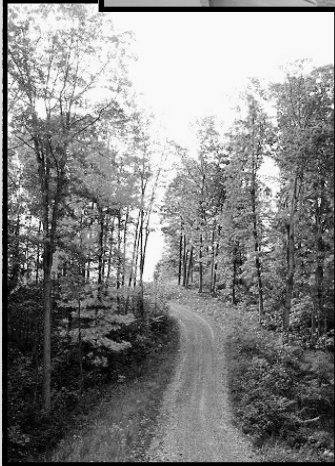

Mountain Laurel Residential Treatment Center

Our residential treatment facility is located in the foothills of the Blue Ridge Mountains of central Virginia.

Our licensed facility will provide long term residential mental health care (6-12 months). Each center will have a base of 6- 8 residents, 13-17 years old, who will receive ongoing residential services, education, traditional mental health, and trauma therapies in a safe, peaceful, and natural setting.

Boys and girls will reside in totally separate areas on the campus. Each house is equipped with a spacious living room, dining room, kitchen, and outdoor sitting area. The bedrooms are for one to three residents. We provide a safe and stable environment that does not re-traumatize the resident. In the therapeutic milieu, the adolescent learns the value of sharing and working with a team, while mastering daily living skills.
